### Project details

Categories:	<b>Structural Works</b>
Date:	2014 / 2015
Project Object:	2 pcs NEW small aluminium crafts (LOA < 24 m.) building
Project Description:	Building of NEW custom designed diving support landing crafts, aluminium, 2 pcs
Manufacturing Place:	Reneko workshop
Manufacturing Time:	app 4 Month each.
Survey body:	Estonian Maritime Dpt.

### Description of work

Customer ordered to build 2 pcs diving support Ships, aluminium hulls, as per custom project. One aluminium landing craft, LOA 13 m., was ordered and fabricated in 2014. It's full speed is above 50 knots. Another-one aluminium landing craft, LOA 18 m., was ordered and built in 2015. That one is fitted with 2 pcs internal diesel motors. Bigger landing craft permitted cargo load on the deck 5000 kg.

Both Ships were fabricated and after that registered by Estonian Maritime Dept.

### After sale

Both Ships are currently in operation.
