Voyage Super-Polishing of Propellers, Stainless Steel, total 10 blades

Project details

Categories:	Marine Propellers Superpolishing Service
Date:	Jan 2016.
Project Object:	Voyage Super-Polishing of Propellers
Project Description:	Passenger Ship 5-bladed propellers, 2 pcs, diameter 5500 mm each Super-Polishing
Repair Place:	Turku Repair Yard, Finland
Repair Time:	5 days

Description of work

Propellers, 2 pcs, SB and PS Super-Polishing was requested by Ship Manager.

Propellers parameters: diameter 5500 mm, 5 blades, stainless steel.

Super-Polishing was chosen due to good experience of influence on fuel savings in operation.

Reneko voyage team has made 2 propellers superpolishing IN-SITU in Drydock to standard of surface roughness < 0.42 Ra. Appropriate surface class was measured in different points and accepted.

After sale

In operation.
